Company Overview: Communications International (Ci) is a leading wireless systems integrator specializing in the design & implementation of mission critical communications systems for the federal, state, local public safety, utility, & transit industries. Founded in 1975, Ci's history is one of service & integrity. We are a true partner for our customers – a single point of contact bringing together best of breed technologies, proven methodologies, as well as the commitment and expertise of more than 180 Employee Owners.

Job Description: The Project Manager is responsible for mapping out the path to successful project delivery, collaborating with customers, consultants, and coworkers to progress along that path. This involves:

- Reading contract documents to understand our scope of work.
- Creating, updating, and maintaining project plans and schedules.
- Updating and maintaining cost estimates and issue logs.
- Conducting project meetings to provide status updates to stakeholders & taking accurate meeting minutes.
- Negotiating & preparing change orders.
- Procuring equipment, materials, & subcontractors.

Position Requirements

- **3+ years of hands-on experience managing multiple \$2MM+ telecommunications projects concurrently. Digital RF and microwave system deployment experience including site development is preferred.**
- PMP certification is **mandatory**.
- A bachelor's degree in a business or technical area of knowledge is **REQUIRED**
- Experience delivering solutions to outside customers is **mandatory**.
- **3+ years of hands-on experience managing multiple concurrent \$2MM+ telecommunications, data center or network deployment projects for external customers. Digital RF and microwave system deployment experience is preferred.**
- Site/facility development experience is also valued.
- Experience leading in-person presentations to customers & stakeholders.
- Proficiency with MS Project, Excel, Word, PowerPoint, and Teams.
- 10% - 25% travel as needed.
- **Must have a valid US Driver's license, must pass a pre-employment drug screen, & background check.**

Telecommunications Project Manager (PMP Certified)

- **MUST LIVE in Florida**

Department Overview: The Projects Team is made up of Project Managers, Implementation Engineers, Field Supervisors & Installers, all working together in a customer satisfaction led culture, often with challenging implementation schedules because we are deploying and upgrading mission-critical communication systems. Together we deliver state-of-the-art P25 and DMR solutions to cities, counties, and businesses throughout the Southeast.
