

Core Competencies

Communications International (Ci) is a systems integrator headquartered in Vero Beach, Florida specializing in the design and implementation of critical communications networks.

Ci specializes in providing customized communication solutions and quality implementation and support services to meet the needs of those in the federal, state and local public safety, utility and transit industries from concept to completion.

Our competencies include:

- Design, develop, install, verify and support complex and custom communications systems
- Develop highly reliable, future ready, flexible fault tolerant custom communications systems for public safety and governmental agencies
- Design turnkey network solutions for interoperability with partner agencies
- Provide system migration planning for future technology enhancements and standards
- Dispatch center design and operational consulting
- Microwave Pathloss design
- Turnkey microwave implementation and verification
- MPLS design and network optimization
- RF coverage/propagation design, planning and performance testing
- Frequency coordination and licensing for LMR and microwave
- Provide system warranty, maintenance and support services
- Provide terminal equipment repair, calibration and programming
- PMP® (Project Management Professional) certified project management
- System administrator, user and technical training

Communications International (Ci) is a wireless systems integrator headquartered in Vero Beach, Florida that specializes in the design and implementation of critical communications systems all over the southeastern United States.

Founded 45 years ago with the mission to serve the public safety community with the best equipment, services and solutions to meet their telecommunication needs, Ci currently has nine locations throughout Florida and North Carolina. Ci is proud to be one of the largest resellers and implementation providers of L3Harris Corporation products. Recognized as an L3Harris Regional Center of Excellence (RCE), Ci is responsible for serving customers both directly and through the support of our robust network of nearly 50 dealers.
